THE CHARLEROI MAIL

VOLUME XXI—NO. 60. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, SATURDAY, AUGUST 14, 1920 TWO CENTS

CONTRACT IS AWARDED FOR REPAIRS TO BELLEVERNON BRIDGE

Ferris Engineering Co. Is The Successful Bidder At $14,000

REPAIRS TO BEGIN VERY SOON

The Washington county Commissioners, accompanied by County Engineer Chaney and Deputy Controller M. M. Decker, were in Uniontown on Friday, where they held a joint meeting with the Commissioners of Fayette county, and the Fayette county engineer and controller.

Bids for the improvement of the floor of the Speers-Belle Vernon bridge, which had been advertised for and which closed on Thursday the 12th were opened in the presence of both boards. Only one bid was submitted, and that one by the Farris Engineering Company, which only a few weeks ago completed a similar contract on the Donora-Webster bridge. The bridge of the Farris company was $14.000, which proved to be acceptable to both boards, and it was accepted the contract being awarded to that firm.

The Belle Vernon bridge is owned jointly by Washington and Fayette counties and recently much, complaint has been made about its condition. At times it has been practically unsafe for travel and the repairs about to be made by the Farris Engineering company are urgently required The bridge carries a heavy traffic which has been increasing during the past few years and is one of the most important thoroughfares in this section of the valley

The work of improvement will begin just as soon as the contracting company can get the material together to commence the repairs which will result in a splendid new floor being placed on the structure,

TROUBLE OVER A COAL MINE LEASE

Some testimony was taken on Monday in Monessen by Harry N. Yont, Esq., Master in the dispute between the Lawker-Dunn Coal company of Rostraver township. and G. M. Neeld, who, under an agreement to mine coal leased by the Lawker-Dunn company, failed to make an accounting as agreed upon.

The Lawker-Dunn people had originally leased certain outcrop coal lands near Belle Vernon, the property of C. M. Johnston, the land owner, and under the terms, it is said, one half of the sale price received was to be paid to Mr. Johnston, one-fourth to the Lawker-Dunn people and Neeld was to retain a fourth. Neeld, it is said, failed to make an accounting for several months, and during this period, it is said, mined about 20,000 tons of coal. A further hearing will be held on September 10.

RECEIVE INSTRUCTIONS ON PASSENGER RATES

The Pennsylvania Railroad Company has issued a letter of instructions to ticket agents, conductors and others in their employ concerning the new passenger rates which become effective on the 26th of August. In this circular are set forth all details in connections with the new ratings and specifies what tickets are valid after that date. Commutation tickets to run not longer than thirty-five days, purchased prior to August 26, and whose use will begin before that time, will be valid until the expiration of the time for which they are sold. Any commutation ticket sold prior to the above date for use beginning Aug 26, and at the present rate, will not be valid.

POTATO CROP IN DANGER OF BLIGHT

That 250.000 bushels of potatoes, comprising the Fayette county crop this year, are menaced by late blight developed during investigations and demonstrations just conducted under the auspices of the Fayette County Farm Bureau. Four demonstrations in spraying have been held during the past few days at as many county farms, by G. F. Miles, of the executive department of State College, and P. H. Sprenkle, Fayette county farm agent.

The demonstrations were held on farms which were selected as test farms and on which spraying has been done at regular intervals through the season. Short sections in each of the fields have been left unsprayed in order to determine, when the crop is dug ,the value of the spraying. The demonstrations have been largely attended and caused great interest among the farmers.

Approximately 3,000 acres in the county were planted in potatoes this season. The extent of the late blight, brought on principally by the cold, rainy weather which has been prevalent, cannot be determined until the crop is dug, but farmers are hopeful that by reason of the spraying the greater part of the acreage may be saved. Next year it is estimated that about 4,500 acres will be planted in potatoes.

PAGE STEEL PICNIC AT ELDORA TODAY

The employes of the Page Steel & Wire company are holding a picnic at Eldora Park today. An extensive program has been arranged for the event, and the attendance is expected to be quite large.

Coal Prices Are Showing A Very Heavy Reduction

That the break in the coal market has finally been produced by the uninterrupted car supply would seem to be indicated by the rather chaotic state existing Thursday. Commencing on Monday the price recession started and by Thursday it was a well defined slip. The market was not quotable on Thursday at any well defined figure but, offerings of spot coal in the Uniontown market were reported to have been made as low as $8. Some actual sales were made at $8.50. The Thursday market was a drop in the neighborhood of from $4 to $5 over the peak prices of $13.50, prevailing last Saturday.

While indications are multiplying that the coal market is seeking a lower level the condition has not definitely settled to a point where it shows any degree of permanency. The car supply is the ruling factor for the break and in its present state the coal market would soon shoot upward again were the supply of cars to return once more to the old uncertain percentage. Well informed observers believe that the car situation is finally creeping out of the woods, but it remains yet to be seen to what extent railroad labor and motive power can handle the increased car supply.

The continuation of the priority order until the 21st of September for open top cars for coal mines had a bearing upon the broken coal market. This order increased the car supply available for coal shipments, consequently allowing greater production, and in turn a softening of the coal market, which promises to go lower should the production approach anything like normal figures.

AGREE TO PAY FOR TRUCK HAULAGE

The county commissioners have agreed to stand the additional expense of about $10.000 which the contractor on the road between Donora and Monongahela will have to pay out on account of trucking cement from Washington to the river. Last season all supplies were delivered at a siding near the work, but this year scarcity of material and particularly cement, compelled the contractor to send trucks to the manufacturing plant in order to secure a supply. He now has plenty of cement, but last week ran out of gravel and thus another delay has been met with. In the meantime the necessary grading has been going on, and once the necessary materials are on hand it should not take long to finish up this stretch of highway.

ALLEGED PICKPOCKETS ARE HELD FOR COURT

Joe Taylor of Missouri, and Otto Franklin of Brooklyn, Illinois were given a hearing before Justice H. W. Scott at Lock Four, Friday evening they having been arrested Thursday evening for attempting to pick pockets on a Monessen car. There were five witnesses, all of whom said they saw the men in the act of trying to steal from passengers, and the Justice held the accused in $1,000 bail for court. They were placed in the Charleroi lockup and will likely betaken to jail at Washington.

PICNIC OF STEEL WORKERS POSTPONED

The picnic of the employes of the Donora mills, which was to have been held today, at Charlesworth Grove, has been postponed until Saturday next. The postponement was caused by uncertain weather. The additional week, however, will give the various committees a longer time to work out their plans, which are very extensive.

Senator Harding seems to believe that the front porch is safer than some platforms.

WILL RETURN DAVIS TO THIS STATE

David Davis arrested in Detroit a few weeks ago while trying to sell $87,000 worth of bonds and securities stolen from the First National Bank of Finleyville, will be extradited to Allegheny county to be tried for the robbery of the bank at Hays borough last June.

Washington county requested that he be returned here for trial in connection with the Finleyville holdup, but was refused. Allegheny county's request was granted. officers from that county presenting testimony of a number of witnesses who declared positively that they could identify Davis as having participated in the daring robbery of the bank at Hays. Washington county officers co-operated with Allegheny county in securing the extradition of Davis. He will be brought to Allegheny county next week.

INVENTS CLEVER ELECTRICAL DEVICE

George Price, an employe of the Carnegie Steel Hoop mills of Monessen, is the inventor of a device which hehas just perfected and which from all appearances will prove a revelation in the outside advertising game. By a celever device advertisements are shown on a screen, each advertisement appearing for about a minute, and then changing. The entire apparatus is operated by electricity and friends of Mr. Price believe it will prove a profitable invention. If the idea proves a success a stock company may be formed to promote it.

1 will collect that rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-tf*

A real diplomat is one who can discuss politics without losing his temper or making the other fellow mad.

SHORTAGE OF TEACHERS IS REPORTED IN THE COUNTY

Opening of Term only Three Off, and Many Vacancies to Fill

LARGEST IN COUNTY HISTORY

A teacher shortage to an alarming degree prevails in Washington county at the present time. With the opening of the term only three weeks away, more than thirty teachers are needed to fill vacancies, despite the fact that a number of rural schools will be closed.

According to a statement made by County Superintendent L. R. Crumrine on Friday, the shortage is the largest in the history of the county at this time. In the past there have always been a few vacancies as the opening of the annual term neared, but usually a sufficient number has been available to supply these. This year the situation is quite different.

The shortage of teachers affects schools in all parts of the county. Reports received by County Superintendent Crumrine during the past few days shows that 32 teachers are actually needed at this time, and this number will probably be increased before the opening of the coming term on the 6th of September. The vacancies include positions in high schools, as well as in grades, and included in the number is one grade principalship.

Locally, the Chrleroi schools have one vacancy to fill before the complete list is announced, and Superintendent Pollock hopes to have that position filled within the next few days. In this immediate section Fallowfield township is in need of two teachers and Long Branch also needs two.

MORE TROUBLES FOR McKEESPORT GAS CO'S.

A bill in equity has been filed in the Allegheny county courts against the Golden Land Oil and Gas company to prevent it from further drilling in the McKeesport gas field. The company was organized with a capital of $130,000, and the first well was drilled last March, after the company had collected $42,000. Gas was struck and during the last 19 days of July the well produced 1,500,000 cubic feet fo gas, but it is alleged the flow is decreasing and cannot last more than 30 days longer. The petitioners believe the field exhausted and want the balance of the money in the treasury returned to stockholders.

PROMISES TO PUSH COUNTY ROAD WORK

In a letter to the Commissioners of Washington County, State Highway Commissioner Lewis S. Sadler announces that it is the intention of the State Highway Department again to advertise for bids for the improvement of sections on State Highway Route No. 181 leading from Washington to Monongahela, as soon as conditions of labor and material supplies justify this action.

The cost of the improvement of these sections is to be paid for entirely by the commonwealth. These projects have already been advertised and the bids were rejected solely for the reason that the prices asked were too far in excess of the estimates of the State Highway Department's engineers.

Commissioner Sadler informed the Washington County Commissioners that the State Highway Department hopes conditions will so far improve as to permit the putting of these sections under contract this fall. The Commissioner further set forth in his letter that it was, also, the intention of the Highway Department to make further contributions toward the improvement of State Highway Route No. 268, leading from Coal Centre to Speers.

OTHER OPERATORS WILL FIGHT RULING

Motor mine operators of Fayette county organized at a meeting held in Uniontown on Thursday night, at which time preliminary steps were taken to fight the recent ruling of the Public Service Commission, which shut off their supply of cars. The association follows lines laid down by the Independent Coal Operators Association of Charleroi, and will take an active part in the hearing to be held before the Commission, possibly at Harrisburg, at a date to be announced later. An initial assessment of $50 was levied on each operator to take care of the expense of looking after the hearing.

PROOF NECESSARY TO SEARCH HOMES

Federal prohibition agents and others engaged in the enforcement of the National prohibition law received quite a shock on Friday in United States District Court, when Judge Charles P. Orr declared there is no provision in the Volstead act empowering officers to enter homes in search of liquor, even if officers are armed with a search warrant, unless they have positive evidence of illicit sales of banned liquor.

The opinion was given when three Mercer county foreigners were before Judge Orr for sentence, being accused of violating the Volstead act. After the men had entered pleas of guilt Prohibition Agent W. J. Hawes told of searching their homes after procuring search warrants. When Mr. Hawes admitted that he had no evidence that there were actual sales of liquor by the defendants, Judge Orr read a portion of the Volstead act and warned the agents against illegal search.

MUCH TALK; LITTLE DONE

Europe with all its troubles and heavy debts, is setting up a good example, to which we pay no attention. France and England are to be united by tunnel under the channel. That is world improvement, and Spain, assuming that the English will not object, plans to connect Europe and Africa with a tunnel at Gibraltar. France has been steadily increasing her canal system, never ceasing, even in war.

Most important of all is this fact:

In the French devastated region they have rebuilt some of the factories, some of the churches, and some of the fine dwellings, but they have rebuilt every one of the schools

In America the biggest city and many smaller cities need more and better schools, but neglect the work that ought to be most important.

We need canals, from the Lakes to the Gulf, via the Mississippi valley, and eastward to the Atlantic.

We talk, but we do little. In the war for a few months, we allowed so much to be stolen, so much more to be wasted, that we recover more slowly than any other nations at war for five years.

FAKE SECURITY SELLERS

The Chamber of Commerce of Holyoke, Mass., has recently promoted a new scheme to beat the fake stock promoters. It published in the newspapers a series of advertisements warning simple minded people against buying fake stocks.

It showed that if the claims of such promoters were true, their securities would be selling 500 per cent above par. The people were warned of wildcat schemes by which hard working people are separated from their money. It urged people to find what they could borrow on a certain stock before buying.

While it was estimated that $750,000 of Holyoke money went into worthless securities during the past year, not a dollar was invested in such schemes while the campaign was on. A campaign like this ought to be pushed in every city and town in the state of Pennsylvania.

Buick

BUILT on the same extra-length chassis as that of the large Buick Sedan, this seven-passenger model represents, in open car design, an exact duplication in size and quality of the more costly closed body type. In every respect, its manufacture is just as scrupulous to fulfill in serviceability the promises made by its fine appearance. And the full measure of the Model K-Six-49 makes it generous in comfort—in roominess—in looks—in all other qualities that are best appreciated in combination with the powerful Buick Valve-in-Head Motor.

Prices f. o. b. Flint, Michigan

Model K-44 - $1595.00
Model K-45 - $1595.00
Model K-46 - $2235.00
Model K-47 - $2465.00
Model K-49 - $1865.00
Model K-50 - $2895.00

BUICK SPENCER GARAGE CADILLAC

They Don't Need Much Sugar

Old fashioned housewives canned by the open kettle method, and required a great deal of sugar to keep the fruit. When sugar was scarce or high they canned very little.

The scarcity of sugar this year is making little difference in canning. The cold pack methot not only makes vegetable canning safe and advantageous, but it permits fruit canning to be done in a very light syrup. With our equipment, fruits may be safely canned without sugar.

We have all sizes Jars, Covers, Good Luck Jar Rings, Wrenches, Wax, Ladles, Funnels, Tops, Sieves and Strainers, Handy Jelly Bag or Strainer with table attachment; wood spoons, enamel, aluminum, tinned Basting Spoons, all sizes; Fruit Jar Racks, used in the wash boiler, Handy Fruit Jar Holders. Everything you will need for canning fruits and vegetables.

PRIVATE STILLS BUSY IN DONORA

According to a statement made by Bargess Cox of Donora there are a large number of private stills in operation in that town, but says it will be impossible for his officers to do anything under the restrictions imposed by the federal courts. "Pickerdie" and other forms of "white lightning" appear to be increasing in quantity in Donora and it is said that many of the residents there growing fearless under lax enforcement, have embarked in moonshine operations.

Squire Charles Ford, a few days ago, investigating a case for the welfare department of the steel mills, found his employes all in the cellar and all engaged in the task of preparing mash for a home-made still Some departments of the mill are suffering from the effects of debauches caused by the moonshine, which, when absorbed in quantity, has a far worse effect than that produced by old J. B., so it is stated. Fewer arrests are made, because the product of these stills is consumed in the home, and appears to be more protracted than when patrons visited the saloons. If the police could secure any co-operation it is said that stills could be uncovered in almost every section of Donora.

CALIFORNIA SENTINEL APPEARED ON TIME

In spite of the fact that the big press of the California Sentinel was dynamited and destroyed on Monday morning last the paper appeared on time as usual this week. The Sentinel will be discommoded for a time but its progress will not be stayed by the hand of the vandal or destructionist.

The charge against E. M. Miller, a coal and iron policeman of involuntary manslaughter, was ignored by the grand jury Friday afternoon. Mr. Miller is employed by the Vesta Coal company at Daisytown, and on May 23, 1920, shot and killed John Kaytin. The evidence showed that the officer did not shoot until after he had been wounded by shots from a revolver in the hands of Kaytin. Kaytin was intoxicated at the time, and Officer Miller was endeavoring to arrest him.

TO EXTRACT SILVER FROM ORE REFUSE

A new sintering plant about to be placed in operation in connection with the Donora inz works, will treat the residue of the Australian ore used at the zinc spelter furnaces and reduce it to clinker form. In this form it will be sent to the refiners for the purpose of extracting the silver deposits to be found in this material. Tests have shown that the silver product will average from four to six ounces to the ton of clinker, and the refining process is so simple that the silver can be extracted with a good margin of profit in the operation.

Mr. and Mrs. Charles McLaughlin and children and Mr. and Mrs. Booker of Lock No. Four left for Charleston, W. Va. to spend a mid-summer vacation with Mr. and Mrs. A. J. Booker.
